Food Industries

ESTABLISHED 1928 — McGRAW-HILL PUBLISHING COMPANY, INC.

GENERAL ALPHABETICAL INDEX *for* VOLUME 10

JANUARY, 1938, TO DECEMBER, 1938

A

ACCIDENTS AND ACCIDENT PREVENTION:

Avoiding the claim racket (ed)..... 181
Dangerous age (N)..... 46
Eliminating accidents to women. E. D. McKeon *277
Food poisoning deaths (ed)..... 63
Kettle safety (ed)..... 315
Making safety work interesting for salesmen drivers. R. H. Butz.....*648
More accident prevention needed in food industries *616
Motor causes explosion (N)..... 299
Safety in operating factory trucks. A. M. Niese 99
Safety pays 300 per cent profit in baking company. R. C. Haven.....*482
Scaffolds must be safe..... 211

ACCOUNTING:

Sales expense and truck operation coordinated by pie bakery..... *88

ADVERTISING:

Curtailment of advertising (ed)..... 668
Filmed puppet show promotes coffee.....*572
Posters create sales in Montclair, N. J. I. C. Miller.....*387
Store display..... 91
Wheeler-Lea Act places responsibility on food manufacturers..... 286
Women's magazines as in influence on sales.....33, 91, 154, 200, 282, 332, 388 442, 502, 566, 638, 692

Agriculture Adjustment Administration:

1939 farm program announced (N)..... 514

AGRICULTURE:

Cooperative movement is growing (ed).... 614
Crop control measures acted upon in Congress (N)..... 45
Farm bill conferees agree on wheat quotas (N) 102
Quotas are established for basic food crops (N) 217
Selenium poisoning of livestock (A)..... 413
Soil erosion control affects the food industries (ed)..... 478

Air compressor economy. J. E. Hyler..... 212

AIR CONDITIONING:

Air conditioning for meat storage. Jack Gutfreund *274
Bakery aids quality control by complete air condition. P. H. Helms.....*684
Bananas ripened and stored in air conditioned rooms. G. H. Watson.....*555
Dehumidifying equipment (e)..... 161
Fan improves operation of air conditioner controls. S. H. Coleman.....*294
How food manufacturers use air conditioning. G. L. Montgomery (charts)..... 384
Stopping the air conditioning hoax (ed)... 369
Temperature and humidities necessary in candy plant (N)..... 403
Yeast storage rooms use anti-freeze solution in air-cooling units. R. S. McBride.....*382

Air eliminated from liquids. R. N. Bostock.*141
Air eliminator (e)..... *43
Air remover (e)..... 161
Aluminum, removing beer stone from (P).. 509
American Assn. of Cereal Chemists meet in Cincinnati (N)..... 405

American Bakers' Association:

Meeting (N)..... 654
Wholesale Cake Bakers' Division meets (N). 103

American Bottlers of Carbonated Beverages:

New York meeting (N)..... 705

American Butter Institute:

Chicago meeting (N)..... 44

American Chemical Society:

Milwaukee meeting discusses food problems (N) 583

American Dry Milk Institute meeting (N). 298
American Poultry Industries meeting (N). 165

American Society of Bakery Engineers:

New York meeting (N)..... 215

Antioxygen—see Flour, oat

Associated Grocery Manufacturers of America

Consider new food and drug law (N)..... 457

B

BACTERIA:

Bacteria on paper containers (A)..... 231
Colony counter (e)..... *295
Contamination of beef (A)..... 528
Control of molds on foods with acetic and fatty acids (A)..... 290
Ethylene oxide method for treating spices. L. H. James.....*428
Micro-organism content of dry foods reduced (P) 399
Mold control during egg storage (A)..... 399
Onion vapors have bactericidal affects (A). 292
Rentschlerizing or ultraviolet method of killing bacteria. H. S. Broadbent...pt 1 *263; pt 2 *327
Rope spores controlled by cleaning and sterilizing. Ashby & Prickett.....*370
Sterilized spices. L. A. Hall.....*424
Sweet wine spoilage (A)..... 291
Unsanitary retail outlets for food..... 696

BAKERIES AND BAKING:

Air conditioning in bakery aids quality control. P. H. Helms.....*684
Aluminum pans cut baking costs. George Garnatz *17
Bread dough degassed during proofing (P). 157
Cake baking (A)..... 647
Cake baking affected by size of sugar particles (A)..... 210
Cake-baking laboratory formulas (A)..... 343
Cakes high in sugar content (P.)..... 700
Delivery cost lowered by specialized body design *570
Expressing flour quality in three dimensions (A) 232
Glutathione in wheat germ injuries baking quality (A)..... 38
Lactic acid in bread making (P)..... 509
Mixes made good by rigid quality control. L. E. Dietrich.....*633
Pans for baking tests (A)..... 38
Prepared cake icing packaged.....*341
Ready-to-bake biscuit dough in can.....*148
Related item package for cake baking.....*340
Rope spores controlled by cleaning and sterilizing. Ashby & Prickett.....*370
Safety pays 300 per cent profit in baking company. R. C. Haven.....*482
Special salt for baking (P)..... 157
"Stale returns" ended in Louisiana..... 146
Tachometers show baking time. E. S. Pattison *451
Trucks for bakeries keep pace with trends in distribution.....*204
Unreached markets for baked goods. Eugene Szepesi..pt 1 *197; pt 2 *272; pt 3 *328
Unreached markets for bakery products. V. C. Kylberg..... 632
Water absorbing power of flour. C. H. Briggs *139

January 1- 60
February 61-122
March 123-178
April 179-258
May 259-312
June 313-366
July 367-418
August 419-476
September 477-544
October 545-612
November 613-666
December 667-720

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patent. (N) News.

Water absorbing qualities of flour. C. H. Briggs *81
Water-in-oil shortening (P)..... 450
Bakeries and baking (see also Bread)
Baking powder (P)..... 38

BEER:
Air affects beer flavor and stability (A).... 157
Air eliminated from liquids. R. N. Bostock *141
Barreled beer—heat transmission through wood (A)..... 509
Cloudy beer (A)..... 97
Color of beer (A)..... 39
Grape juice to make beer (P)..... 701
Inorganic substances in beer (A)..... 581
Low-sugar beers (A)..... 647
Nickel beer may alter market..... *506
Belting for conveyors (e)..... *296
Belting idler (e)..... 704

BEVERAGES:
Air eliminated from liquids. R. N. Bostock *141
Coca-Cola uses special type trucks..... *150
Fermented cherry mash (A)..... 53
Filtering beverages (P)..... 647
Fine grinding of malt for cereal beverage. J. L. Fortune..... *485
General instructions for carbonated beverage plants submerged in flood..... *40
Gingamalt *506
Ginger ale in cans..... *208
Gingerale syrup..... *506
Malted milk canned..... *393
Malted milk with vitamin D..... *574
Papaya beverages..... *206
Papaya beverage is food, tonic and "pick-up" *85
Papaya products..... *507
Sterilizing filter for beverages (P)..... 210
Tea concentrate..... *392
Tropical beverages..... *392

BLANCHING:
Quality separation by differences of density in canning peas. L. V. Burton..... *68
Vegetable blanching for freezing preservation. Joslyn & Marsh...pt 1 *379; pt 2 *435

BOILERS:
Automatic controls in salt plant improve boiler operation. C. W. Parsons..... *372
Boiler continuous blow down. W. F. Schaphorst 212
Deaerating boiler make-up water. N. T. Pef *98
Hot water storage cuts costs. N. T. Pef.. 294
Water treatment (e)..... 348

BOOK REVIEWS:
America's cook book..... 59
Annual review of biochemistry. Luck & Noller 475
Bacterial content of milk as affected by the use of different plating methods. Alec Bradfield 418
Baker's cake better than the housewife can make 311
Beer from the expert's viewpoint. R. A. Wahl & A. S. Wahl..... 233
Business and the Robinson-Patman law, ed by Benjamin Werne..... 233
Cacao fermentation. A. W. Knapp..... 59
Canning practice and control. Osman Jones & T. W. Jones..... 233
Check sheet—introduction of new industrial products 366
Chemical analysis of food products. M. B. Jacobs 475
Chemical analysis of foods. A. E. Cox.... 530
Chemical engineering catalog..... 59
Chemical engineering catalog, 1938..... 720
Commodity packaging data..... 366
Communications in the science and practice of brewing..... 121
Corrosion of tin in nearly neutral solutions. T. P. Hoar..... 233
Directory of members of Assn. of Consulting Chemical Engineers..... 418
Fluorine intoxication. Kaj Roholm..... 233
Food chart for your health..... 121
Freezing temperature of some fruits, vegetables and florists' stocks. R. C. Wright.. 121
Graphic routes to greater profits. J. W. Esterline 311
Handbook of industrial fabrics. G. B. Haven 720
Handling, grading, and uses of rice comp by Corbett & Boerner..... 121
How to handle grievance. Glenn Gardiner. 178
How to keep accounts and prepare statements. E. A. Saliers..... 418
Index to the literature of food investigation. 59
Industrial & commercial buildings..... 60
Industrial shop lighting..... 60
International Tin Research and Development Council 530
Introduction to bacteriological chemistry. C. G. Anderson..... 475
Laboratory manual, ed by J. C. Fridenberg. 178
Man, bread and destiny. C. C. & S. M. Furnas 121
Milk bottle losses and ways to reduce them. 666
Multiple management. C. P. McCormick.. 666
Nickel as a catalyst. O. B. J. Fraser..... 178
Nutritive aspects of canned foods..... 59
Permeability of membranes to water vapor with special reference to packaging materials. F. T. Carson..... 60
Practical physiological chemistry. Hawk & Bergeim 530
Robinson-Patman Act. Wright Patman.... 365
Silver wedge—sugar beet..... 233
Soilless growth of plants. Ellis & Swaney.. 475
Soybean industry. A. A. Horvath..... 475
Statistical comparison of two methods for determining the bacterial count of milk. J. M. Frayer..... 418
Story of vitamin B. C. R. Addinall..... 366
Structural aluminum handbook..... 666
Structure and composition of foods. A. L. & K. B. Winton..... 365
Studies on trichinosis. M. C. Hall..... 178
Supplement to management biblography. R. M. Berg..... 59
Technique of marketing research..... 365
Trane aid conditioning manual..... 475
Use of motor trucks in marketing fruits and vegetables. M. P. Rasmussen..... 178
Utilization of fruit in commercial production of fruit juices. Joslyn & Marsh..... 418
Vitamin content of foods. Peterson & Munsell 418
Vitamins in canned foods. E. F. Kohman.. 178
Weston-Levine vitamin chart. R. E. Remington 233

BOTTLES:
Damaged milk bottles (A)..... 647
How to reduce milk bottle losses (A).... 700
Peel-off beer cap..... *574
Spacer for bottles..... *392
Status quo for milk bottles (ed)..... 669

BREAD:
Bacteria-yeast leaven to make bread (P)... 210
Biochemistry of bread (A)..... 581
Consumers will pay for quality (Pepperidge bread). I. C. Miller..... *630
Control of molds on foods with acetic and fatty acids (A)..... 290
Date and nut bread canned..... *28
Florida's localized bread deliveries..... *288
Frozen bread (N)..... 350
Frozen bread. W. H. Cathcart (N)..... 583
Lactic acid bacteria for better quality control in baking (P)..... 700
Lactic acid in bread making (P)..... 509
Mold and "rope" inhibitor..... 453
Rope spore controlled by cleaning and sterilizing. Ashby & Prickett..... *370
"Sawdust" bread for Nazis (N)..... *217
Slicer and wrapper (e)..... *162
Unreached markets for bakery products. V. C. Kylberg..... 632
Unsanitary retail outlets..... 696
Vanadium catalyst in bread making (P)... 96
White vs. whole-wheat bread (A).291; (A) 399

BREWING:
Are industrial wastes liabilities? F. W. Mohlman 271
Fine grinding of malt for cereal beverage. J. L. Fortune..... *485
Hop strainer (e)..... *162
Prevention is better than cure for brewing troubles. R. H. Hopkins..... *74
Research laboratory needed (ed)..... 615
Brewing Industry and American Brewers ally themselves with United Brewers Industrial (N)..... 707
Buildings, see Plants

BUTTER:
Advertising butter on a nation-wide scale planned (N)..... 653
A. B. I. talks quality control (N)..... 44
Fishy flavor in butter (A)..... 97
How butter differs from margarine (A).... 662
Keeping qualities of cold storage butter (A) 582
Keeping quality of butter (A)..... 701
Relation of pasteurization to keeping quality of butter. Parker & Brengman..... *66
Standards for butter issued by government (N) 297
Treating packaging materials with oat flour improves keeping quality. Peters & Musher *129
Why cream churns to butter (A)..... 229

C

Cable, steel, saves electrical hook-up. Billie Burgan *346
California Frozen Pack Conference..... 262

CANNING AND PRESERVING:
Air eliminated from liquids. R. N. Bostock. *141
Apple juice preserved with CO_2 (A)..... 38
Apple rings canned..... *574
Applesauce made in the digester or pressure cooker. W. D. Pheteplace Jr..... *193
Are industrial wastes liabilities? F. W. Mohlman 271
Beans with sausages..... *148
Blanching vegetables for freezing preservation. Joslyn & Marsh...pt 1 *379; pt 2 *435
Borden's Eagle Brand Magic Milk..... *149
California packers problems..... 695
California peach agreement boomerang.... 573
Can sizes may be reduced in number (N)... 297
Cooperative formed for pea canners..... 574
Crab a la Newburg in jars..... *642
Crosse & Blackwell set standards for quality control. B. W. Clarke..... *184
Date and nut bread canned..... *28
Early days of canning in England (A)..... 662
Effect of temperature on tomato juice (A).. 157
Flame peeling of potatoes..... *268
Food value in canned goods (A)..... 581
Fruit cake in cans..... *642
Fruit gelatine salads canned..... *84
Gaskets for "sanitary" cans (A)..... 342
Ginger ale in cans..... *208
Glycerine as a preservative (A)..... 509
Grape juice canned..... *340
Grape and grape juice preserving. C. H. S. Tupholme 374
Hard sauce in glass container..... *85
Herring line packed in four different sauces. *29
Japanese floating fish canneries in disrepute (N) 163
Lacquering the inside surface of food tins (P) 647
Lead in canned sardines investigated (A).. 473
Malted milk canned..... *393
Mandarin oranges canned and exported from Japan (N)..... 46
Materials for food cans (A)..... 38
Multi-stage tubular freezers for quick freezing of fruits and vegetables. W. J. Finnegan.....pt 1 *622; pt 2.....*675
National Canners' Assn. opens testing kitchen (N)..... 458
New preserve standards being developed (N) 584
Oyster stew canned..... *207
Peach canners' price control agreement may set precedent to food manufacturers..... 145
Potatoe shoestrings canned..... *392
Potatoes, small new, canned..... *207
Preserve case decision important (N)..... 350
Prune surplus stock reduced..... 339
Puffed apple products..... *206
Quality separation. L. V. Burton..pt 1 *6; pt 2 *68; pt 3 *136
Ready-to-bake biscuit dough in can..... *148
Rust on celery (A)..... 581
Soup, cream, with wine..... *690
Soups rich in fat (A)..... 411
Steam required to can peas. S. H. Coleman *211
Sweet potatoes canned..... *393
Tropical fruit in rum..... *28
Wastes treatment in Wisconsin canneries. L. F. Warrick..... *20
Carob bean products (P)..... 718
Carotin in Denmark (A)..... 593
Catsup, tabasco flavored, in new bottle..... *149

CEREALS:
Rye flakes..... *449

CHEESE:
Aluminum foil coated for cheese wrappers (A) 450; correction..... 700
Bad tilsit cheese from silage milk (A)..... 158
Determining foreign matter in cheese (A).. 662
Edam spread cheese..... *207
Gassy brick cheese (A)..... 701
New method of curing and packaging cheese *279
Pressed curd needs more study (A)..... 410
Recovering cream from spoiled cream cheese (P) 39
Sodium alginate as a stabilizer. M. J. Mack *195
Wrappers for cheese (P)..... 97

CHOCOLATE:
Cattle feed from cocoa bean shells (A).... 701
Chocolate milk drink stabilized with sodium alginate. M. J. Mack..... *195
Honeycomb chocolate bar..... *207
Porous chocolate (P)..... 526
Prepared cake icing packaged..... *341
Testing chocolate, cocoa powder for fineness of grind. Leo Freundlich..... *562
Viscosity of chocolate coatings. B. J. Zenlea 37; 564
Citric acid from cane juice (A)..... 177
Clarifying extracts (P)..... 291

CLEANING AND SANITATION:
Administration of the new federal food, drug and cosmetic law. W. G. Campbell.... 688
Beer stone removed from aluminum (P).. 509
Chimney discharges are a factor in quality control. S. H. Coleman..... 575
Dirty floors—potential hazard for spoilage (ed) 261
For sanitary pipe lines (ed)..... 314
How to select and maintain sanitary floors. Shillinglaw, Hale & Sharf..... 687
Keeping surface coolers sterile (A)..... 450
Milk machine design must be guided by sanitary requirements. G. C. Hagblom.. *375
More accident prevention needed in food industries *616
Pipe lines and hose cleaned (A)..... 580
Rentschlerizing or ultraviolet method of killing bacteria. H. S. Broaubent.pt 1 *263; pt 2 *327

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patent. (N) News.

E. Eng. Pub. direct

Rope spores **controlled by cleaning** and sterilizing. Ashby & Prickett.....*370
Washing of **re-use containers** (A)..... 580
Clock, time schedule (e).....*577
Coenzymes (A)..... 292

COFFEE:
Cream feathering in coffee (A)..... 701
Decaffeinized coffee (A)..... 39
Decaffeinizing coffee without organic solvents (P)..... 529
Filmed puppet show promotes coffee.....*572
Kaffee **Hag** and Sanka coffee (ed)..... 61
Ozone treatment for coffee beans (P)..... 39
Self filtering coffee (P)..... 176
Soap as a coffee byproduct (A)..... 593
Treating packaging materials with oat flour improves keeping quality. Peters & Musher *129
Unripe coffee beans lack flavor (A)..... 665
College in Oklahoma to teach food engineering. J. J. Keith.....*673
College in Oregon prepares men for the food industry. E. H. Wiegand.....*316
Compressed air for transfer of liquids. J. E. Hyler 294
Compressor, gas engine (e)..... 100

CONFECTIONERY:
Caramels in seven flavors..... *28
Cashew nuts confection.....*206
Dry milk solids in confectionery manufacture (N)..... 298
Hazelnut bar in nickel size..... 148
Multiple center bar of chocolate.....*690
Temperatures and humidities necessary in candy plant (N)..... 403
Viscosity of chocolate coatings. B. J. Zenlea 37; 564
Consumers Foundation formed..... 83

CONSUMPTION OF FOODS:
Canners acknowledge consumers..... 146
Consumption constant (ed)..... 547
Estimated annual consumption of meat in various countries (table)..... 286
It's time to talk facts to food consumers. I. C. Miller..... *26
Mrs. Consumer thinks out loud. Mrs. Bert W. Hendrickson 25
Package must talk. I. C. Miller..... 691
Scripps-Howard's survey of consumer's buying habits..... 505
Surplus creates surplus..... 695
White vs. whole-wheat bread (A)..... 399

CONTAINERS:
Administration of the new federal food, drug and cosmetic law. W. G. Campbell..... 688
Bacteria on paper containers (A)..... 231
Basket promotes spice sales.....*341
Gift box of tea balls..... *84
Orange crate can be broken up into retail packages *573
Paper tea balls.....*340
Paraffining of food cartons and containers. J. E. Hyler..... 510
Pepper packaged for eye appeal.....*393
Shipping pail closures (e).....*348
Sugar in paper sacks.....*392
Transparent plastic material as rival to glass and tin..... *29

CONTROL:
Automatic controls in salt plant improve boiler operation. C. W. Parsons.....*372
Batch mixer has automatic control.....*293
Controller, reset (e).....*296
Fan improves operation of air conditioner controls. S. H. Coleman.....*294
Sheffield's new milk plant incorporates new ideas on engineering. H. McNabb.....*550
Spice fumigation by vacuum treatment. R. S. McBride.....*430
Tachometers show baking time. E. S. Pattison *451
Temperature controller (e).....*453
Variable speed control (e).....*650

CONVEYORS:
Ball bearing idler (e).....*453
Chain, two plane (e).....*401
Conveyor installed in chute takes packages either up or down. Frank Conly.....*293
Conveyor roller (e)..... 43
Fruit washing machine covered with synthetic rubber. A. F. Clark.....*510
Trip switch avoids jams..... *95
Trough conveyor unloads silos. S. H. Coleman 397

COOKING:
Applesauce manufacture in pressure cooker. W. D. Pheteplace Jr.....*193
Potato changes in cooking (A)..... 53
Traps and cooking speed. J. E. Hyler..... 451
Cooler, milk (e)..... 400

CORN:
Ear rot and blue eye in corn (A)..... 527
Corn chips.....*148; *449

CORROSION:
Fruit washing machine covered with synthetic rubber. A. F. Clark.....*510
Metal corrosion by juices, musts and wines (A) 290

CRACKERS:
Cracker canape.....*392
Keeping quality of crackers improved by antioxygen. H. O. Triebold..... 71
Crusher, saw-tooth (e).....*295
Cutter for cellophane (e)..... 511

D

DAIRY EQUIPMENT:
Sanitary requirements guide designer of milk machines. G. C. Hagblom.....*375
Sheffield Farms' construction features at 57th street. H. McNabb.....*682
Sheffield Farms constructs new building to cut costs. L. A. Van Bomel.....*492
Sheffield Farms' pasteurizing plant at 57th street. H. S. Van Bomel..... 625
Sheffield Farms' trucking system successfully operates new plant. Cuddeback & Buckley *496
Sheffield's new milk plant incorporates new ideas on engineering. H. McNabb.....*550
Dairy Industries Exposition in Cleveland (N) 653

DAIRY PRODUCTS:
Aeration for instant whipping of cream (A) 229
Dairy industry accused of illegal practice (N) 706
Storage time and temperature and cream grades (A)..... 158
Date paste (A)..... 176
Drives, short-center. J. E. Hyler..... 211

DRYING:
Citrus fruit industry develops products from waste. Francis Rosseau.....*556
Drum dryer (e).....*400
How to select the right dryer (A)..... 290
Puffed, crystallized fruit (P)..... 580

DUST:
Chimney discharges a factor in quality control. S. H. Coleman..... 575
Dust collector (e)..... 294
Dust explosions (A)..... 450

E

EGGS:
Determination of stability of beaten egg albumen. R. I. Carney..... *77
Egg-white foam can now be converted into dried egg white (N)..... 104
Mold control during storage (A)..... 399
Preserving and storing eggs (A)..... 290
Elevator for piling cartons and containers (e) *401

EMPLOYEES:
A. F of L. and C. I. O. contest (ed)..... 479
Campbell Soup workers get pensions (N).. 585
General Foods increases benefits for employees (N)..... 46
Hours of grocery clerks in dispute in Oakland *505
Industrial relations. T. G. Spates.....*182
Method for finding lost man hours. H. A. Moon *266
Penalty of labor's unsound policies (ed).... 181
Seniority in industrial relations. E. L. Cady.*671
Wage-hour bill passed (N)..... 405
What the food industries mean to labor (charts) 610, 612

ENGINEERING:
Profiting from good engineering (ed)..... 63

EQUIPMENT:
Aluminum pans cut baking costs. George Garnatz *17
Applesauce manufacture in pressure cooker. W. D. Pheteplace Jr.....*193
How quality can be controlled in wine making. Marius Biane..... *78
Latest revenue act affords tax savings on trade-ins of equipment. John Thies.... 670
Malt grinding in brewing cereal beverage. J. L. Fortune.....*485
Milk machine design must be guided by sanitary requirements. G. C. Hagblom..*375

EXPOSITIONS:
Bakery building at New York World's Fair (N) *456
New York World's Fair—bakery building (N) *164
New York World's Fair—"cowshed".....*351
San Francisco—Golden Gate food exhibits planned (N)..... 299

F

Feeder, vibrating, for belts (e)..... 347

FILTERING:
Beverage filtering (P)..... 647
Corrosion resistant filter medium (e)..... 101
Cylindrical filter (e).....*704
Filter, single disk (e).....*650
Filter, "Tank Hercules" (e).....*296
Fruit juice filtration (A)..... 470
How to test filter material (A)..... 342
Sterilizing filter for beverages (P)..... 210

FISH:
Fillets, fresh frosted..... *29
Fish not injured by placer mine tailings (A) 718
Germany develops new process for keeping fish fresh (N)..... 299
Herring line packed in four different sauces. *29
Japanese agree to quit American fishing waters (N)..... 217
Japanese floating fish canneries in disrepute (N) 163
Kentucky salt fish packer.....*149
Packaged fish the trend.....*391
Quick freezing helps distribution. I. C. Miller *199
Refrigerator cars tests (A)..... 96
Salmon poaching in Alaska (N)..... 350
Sardine markets invaded by Japanese (N). 104
Technologists of Bureau of Fisheries demonstrate work (N)..... 195
Whale meat extract (A)..... 582
What technology is doing for the fish industry. J. R. Manning.....*191
Fisheries building of New York Fair (N).. *46

FLAVORING:
Extract seizures (N)..... 45
Maple-favorite food flavor. F. S. Morison.. 143
Obscure cause of flavor disappearance (ed). 421
Putting spice flavoring under control. Aladar Fonyo *426
Spices, flavoring herbs and their uses (table) 423

FLOODS:
General instructions for carbonated beverage plants submerged in flood..... *40
Floors, sanitary. Shillinglaw, Hale & Sharf 687
Floors, wood, maintenance system for (Ed). 401

FLOUR:
Conditioning wheat (A)..... 664
Consumption of flour in electric dry cells (A) 292
Dry malt extract (P)..... 412
Expressing flour quality in three dimensions (A) 232
Glutathione in wheat germ injures baking quality (A) 38
How to score the quality of wheat (A)..... 97
New contract for bakers (N)..... 457
New milling process to keep the wheat germ (N) 515
Oat flour improves the keeping quality of crackers. H. O. Triebold..... 71
Potato flour in two-parts (A)..... 177
Treating packaging materials with oat flour. Peters & Musher.....*129
Water absorbing power of flour. C. H. Briggs *81, *139
Whole wheat flour in small bags.....*690
Flow measurement (e).....*100
Fluorine ingestion (A)..... 529

FOOD:
Developing men and methods for the food industry. E. H. Wiegand.....*316
Food science vs. food technology (ed)..... 547

FOOD INDUSTRIES:
Historical summary 44
Food Preservation Conference (N)..... 652
Program (N) 585
Food technologists are needed (ed)..... 615

FRUIT JUICES:
Apple juice preserved with CO_2 (A)..... 38
Canned grape juice.....*340
Clarifying extracts (P)..... 291
Concentrating fruit juices without jelling (P) 526
Deaeration process (P)..... 350
Filtering fruit juices (A)..... 470
Grape and grape juice preserving. C. H. S. Tupholme 374
Grapefruit juice from Arizona.....*642
Navel orange juice to be canned (N)..... 707
Papaya fruit drink.....*340
Pasteurization without loss in quality (P).. 228
Pasteurizing equipment for fruit juices.....*703
Tropical beverages *392
When is a juice a beverage? (ed)..... 669

FRUITS:
Bananas ripened and stored in air conditioned rooms. G. H. Watson.....*555
Berries are quick frozen with portable units. H. A. Noyes.....*678
California cling peach agreement can boomerang 573
Citrus fruit industry develops products from waste. Francis Rosseau.....*556
Diseases of lemons in storage (A)..... 342
Dried fruit protected by cloth cover to prevent insect infestation.....*434
Figs can develop a surface spotting (A).... 665
Fluorine spray tolerance increased (N)..... 707
Freezing methods evaluated. J. G. Woodroof *618
Fresh Hawaiian fruit can now be imported (N) 707
Fruit-fly eradication (N)..... 298
Gas storage of pears (A)..... 342
Hard dry fruits softened (P)..... 450
Lead tolerances increased (N)..... 585
Mandarin oranges canned and exported from Japan (N) 46
Multi-stage tubular freezers for quick freezing of fruits and vegetables. W. J. Finnegan pt. 1 *622; pt. 2.....*675
Papaya products *507
Pa-Poya a food, tonic and pick-up..... *85
Peach canner's price control agreement may set precedent to food manufacturers..... 145
Peach growers problems (ed)..... 547
Pineapple to stabilize salad dressings (P).. 411
Puffed apple product.....*206
Puffed crystallized fruit (P)..... 580
Quality control in frozen foods industry. D. K. Tressler.....*320
Quick freezing helps distribution. I. C. Miller *199
Storing fruits without mechanical refrigeration (A)..... 700
Watermelons vary in content of vitamin C (A) 472

FUMIGATION:
Cyanide warning by government (N)..... 45
Spice fumigation by vacuum treatment. R. S. McBride.....*430

G

Gate, self-latching, stops thefts. Billie Burgan *159

GLASS CONTAINERS:
Plastic mustard paddle.....*208
Where proper machine maintenance is needed (ed)..... 669
Glycerine as a preservation (A)..... 509
Grain storage (A)..... 344
Graphical method of finding lost man hours. H. A. Moon *266

SALT:
Dispenser for salt (e) *511
Metal container for salt *206
Place of salt in the diet (A) 292
Seawater salt produced (A) 473
Sandwich filling machine (e) *214
Scaffolds must be safe 211
Screen, vibrating (e) *454
Sealer for packages (e) *453
Seaweed products (A) 113
Selenium poisoning of livestock (A) 413

SEPARATION:
Quality separation by differences of density. L. V. Burton pt. 1 *6; pt. 2 *68; pt. 3 *146

SHIPPING:
Tape lengths measured for shipping *27
Shovel, aluminum (e) *511
Shredded wheat issue decided (N) 706
Smell of food. W. E. Groeg 37
"Sonic cavitation" used for treating milk and ice cream mixes. L. A. Chambers 133
Sorbose cost cut (N) 350
Sound waves used for treating milk and ice cream mixes. L. A. Chambers *133

SOYBEANS
Bureau of Agriculture issues overexpansion warning (N) 458
Soya oil low in phosphatides (P) 97
Speed changer, vari-pitch (e) *348; (e) *454

SPICES:
Automatic equipment for spice fumigation. R. S. McBride *430
Ethylene oxide method for treating spices. L. H. James *428
Putting spice flavoring under control. Aladar Fonyo *426
Repackaged spice cans *148
Seek fewer spice packages (N) 46
Spices, flavoring herbs and their uses (table) 423
Sterilized spices. L. A. Hall *424
Stabilizers in food. B. I. Masurovsky 325

STANDARDS:
Administration of the new federal food, drug, and cosmetic law. W. G. Campbell 688
Butter standards issued by government (N) 297
Drafting new food standards is soon to begin 548
Fair trade rules tentatively approved (N) 404
Food and Drug law administration (ed) 478
Food industries should press for enactment of a food and drug law *4
Foods standards committee appointed (N) 513
Formulation of food standards to begin (N) 652
Government grades for frozen foods in prospect (N) 513
How to establish standards under new food law. Epstein & Israel *488
Mold standards for tomato juice tightened (N) 513
Spice package simplification proposed (N) 46

STARCH:
Improvements in potato starch manufacture (A) 432
Preventing discoloration in potatoes 718
Wild plant starches (A) 472

STATISTICS:
Costs of buildings per cubic foot in cents (Detroit Real Estate Board) 378
How food manufacturers used air conditioning. G. L. Montgomery (charts) 384
Packaged fish production (table) *391
Public relations in the food industry 597-612
Steam trap, bucket (e) 400
Steel, stainless one piece spinnings 295

STERILIZATION:
Ethylene oxide method for treating spices. L. H. James *428
Rentschlerizing or ultraviolet method of killing bacteria. H. S. Broadbent pt. 1 *263; pt. 2 *327
Rope spore controlled by cleaning and sterilizing. Ashby & Prickett *370
Spices sterilized. L. A. Hall *424
Sterilizing filter for beverages (P) 210
Wrapping materials sterilized (A) 509

STORING:
Air conditioning for meat storage. Jack Gutfreund *274
Apple storage, too cold (A) 581
Bananas ripened and stored in air conditioned rooms. G. H. Watson *555
Butter in cold storage (A) 582
Calculating refrigeration requirements in beer storage (A) 157
Diseases of lemons in storage (A) 342
Existing cold storage facilities for quick frozen foods. I. C. Miller *438; pt. 2 *501
Fruit storage without mechanical refrigeration (A) 700
Fruit and vegetable storage (A) 718
Gas storage for meat (A) 509
Gas storage of pears (A) 342
Grain storage (A) 344
Heating economy for warehouse. S. H. Coleman *98
Locker plants for storing frozen foods. I. A. Miller pt. 1 *565; pt. 2 *637
Lockers for cold storage (N) 351
Lockers for the farmers discussed at conference (N) 404
Mold control during egg storage (A) 399
Ozonizing foodstuffs (A) 580
Potatoes in storage (A) 113
Precautions necessary when storing frozen foods. J. J. Antun *319
What technology is doing for the fish industry. J. R. Manning *191
Yeast storage rooms use anti-freeze solution in air cooling units. R. S. McBride *382

SUGAR:
Abnormal sugar crystals still unexplained (A) 413

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patent. (N) News.

Acidity in sugar refining (A)..... 52
Ash in sugar (A)..... 582
Bureau of Plant Industry develops new sugar cane (N)..... 104
Champagne flavor influenced by the sugar (A)..... 399
Citric acid from cane juice (A)..... 177
Colored sugar for tea.....*392
Dextrose restrictions seen as unnecessary (N)..... 706
Electrolysis as a tool in sugar refining (P). 580
Lump sugar from corn sugar (P)..... 112
Maple products. F. S. Morison..... 143
Refining sugar (P)..... 52
Sugars in water softeners (P)..... 528
Supersonics, see Sound waves

SYRUPS AND MOLASSES:
Chocolate-flavored milk amplifier..... *29
Flavor in Barbados molasses can now be made in domestic syrups (N)..... 104
Maple products. F. S. Morison..... 143
Molasses flow speed by strip heaters..... 99
Sorgo syrup process improved (N)..... 297
Strawberry syrup for use in beverages made by Bureau of Chemistry (N)..... 299

T

Tank agriculture (A)..... 53

TANKS:
Cedar vinegar tank, on truck..... *31
Liquid transporter (e)..... *43
Surface treatments for concrete and steel tanks (A)..... 96
Taking dents out of tanks. W. F. Schaphorst *294

TARIFFS:
British trade pact (N)..... 45
Commodities listed for trade pact with Britain (N)..... 104
Czechoslovakian treaty (N)..... 217
Great Britain treaty changes food tariffs (N) 705
Philippine export tariffs in dispute (N)... 103
State tariffs in disguise..... 696

TAXATION:
Chain-store tax bill to be modified (N).... 707
Latest revenue act affords tax savings on trade-ins of equipment. John Thies.... 670
Process taxes planned on wheat, rice, cotton (N)..... 215
Texas chain store tax declared valid..... 147
"Third basket tax" should be killed (ed).. 124
Why not make capital out of our tax figures? L. V. Burton 318
You don't pay wages out of taxes (ed)..... 180

TEA:
Tea concentrate from vegetable juice process*506
Tea balls in gift boxes..... *84
Tea concentrate.....*392
Thermometer, portable recording (e).....*401
Thermometers (e)..... 161

TOMATOES:
Effect of temperature on tomato juice (A).. 157
Mold standards for tomato juice tightened (N) 513
Sugar improves tomatoes (N)..... 349
Trade-practice rules proposed for tomato industry (N)..... 458
Waxing stem scar keep tomatoes longer (N) 104
Trademarks in sausages made tamperproof. William Dinnon..... *72
Trailer for light truck (e)..... 101
Transporting frozen foods. I. C. Miller (table) *385

TRUCKS AND TRUCKING
Aluminum bodies for milk and other food..*394
Aluminum body carries more heat.....*447
Bakers use specialized body design to lower delivery cost.....*570
Bakery trucks keep race with trends in distribution *204
Beverage distribution truck type.....*150
Bodies of stainless-steel increase payload capacity *30
Cedar vinegar tank on truck..... *31
Cost of distribution by truck. Jones, Faulkner, Claxton..... *32
Costs of trucking..... 90
Counterbalanced truck for underslung loads. J. E. Hyler.....*397
Different temperatures for foods in one truck body *644
Economical operation of trucks necessary (ed) 478
Extra miles out of tires. Schmitt, Chittenden, Brown, Taylor, Wheeler..... 203
Florida's localized bread deliveries.....*288
Getting the most out of tires. Harrison, Thorne, Witzeman, Shaffer, Farrar..... 152
How repaint work can best be handled. G. M. Davidson.....*646
Load both ways cuts trucking costs.....*446
Lubrication of trucks. Ewing, Haskins.... 445
Making safety work interesting for salesmen drivers. R. H. Butz.....*648
Mushrooms to market by truck.....*698
Oiling the way to lower truck costs. Office, Lamey, Johnson, Neubauer..... 508
Paint for motor vehicles. Faukner, Boyer..*396
Paint shop operation. Cohen, Lipman, Barber, Greaney, Michie, Peth, Boyer.....*697
Painting motor vehicles. Davidson, Leadbeater 287
Painting motor vehicles. Turner, Michie.. 445
Platform truck (e).....*704
Safety in operating factory trucks. A. M. Niese 99
Safety pays 300 per cent profit in baking company. R. C. Haven.....*482
Sales expense and truck operation coordinated by pie bakery..... *88
Saving the surface of motor vehicles. Wennagel, Pape, Barber, Van Tine..... 335
Scoop truck (e).....*578
Sheffield Farms' trucking system successfully operates new plant. Cuddeback & Buckley.....*496
Temperature control for truck bodies.....*336
Tractor-trailer units move fruits to market..*289
Transporting frozen foods. I. C. Miller (table) *385
Vagaries of transportation (ed)..... 546
When does it pay to operate a paint shop? **Faulkner, Gibbons, McCall, Harmon....** 569

U

ULTRA-VIOLET RAYS
Milk irradiation (P)..... 470
Rentschlerizing or ultraviolet method of killing bacteria. H. S. Broadbent pt 1 *263; pt. 2.....*327
Water sterilization by ultraviolet (A)..... 343

U. S. BUREAU OF FISHERIES:
Technologists demonstrate work at meeting (N) 105
University of Tennessee to hold conference on food (N)..... 515

VALVES:
Choice of reducing valves. J. A. G. Gibbons 345
New valves and fittings (e)..... 347

VEGETABLES:
Asparagus shipped frozen or not frozen.... 262
Bacteria in frozen pack vegetables (A).... 231
Blanching vegetables for freezing preservation. Joslyn & March pt. 1 *379; pt. 2..*435
Carotene juice..... 341
Factors affecting the price of dry beans (A) 473
Flame peeling successful for potatoes.....*268
Freezing methods evaluated. J. G. Woodroof *618
Increase in commercial vegetable acreage by states (table)..... 338
Multi-stage tubular freezers for quick freezing of fruits and vegetables. W. J. Finnegan pt. 1 *624; pt. 2.....*675
Onion vapors have bactericidal effects (A) 292
Percentage increase in population and average acres per commercial vegetable farm (table) 338
Quality control in frozen foods industry. D. K. Tressler.....*320
Quality separation by differences of density in canning peas. L. B. Burton pt. 1 *6; pt. 2 *68; pt. 3.....*136
Quick freezing helps distribution. I. C. Miller *199
Rust on celery (A)..... 581
Tea concentrate from vegetable juice process *506
Vegetable juices..... 84

VITAMINS:
Food value in canned foods (A)..... 581
Hormones and vitamins from whales (A). 292
Malted milk with vitamin D.....*574
Vitamin E (A)..... 343
Vitamins in the diet (A)..... 232
Watermelons vary in content of vitamin C (A) 472

W

Washing machine for fruit covered with synthetic rubber. A. F. Clark.....*510

WASTE:
Are industrial waste liabilities? F. W. Mohlman 271
Citrus fruit industry develops products from waste. Francis Rosseau.....*556

WASTE TREATMENT:
Cannery wastes treatment in Wisconsin. L. V. Warrick..... *20
Conference committee agree on pollution bill (N) 405
What of your wastes? (ed)..... 3
Water softeners, sugars in (P)..... 528

WEATHER:
Fourteen day temperature forecasts (ed)... 63
What will the weather be?..... 5
Weigher-filler (e).....*213
Whales as a source of vitamins and hormones (A) 292
Whey, new uses for (N)..... 349

WINE:
Bacteria withstand 24 per cent alcohol (A). 291
Butyleneglycol in wines (A)..... 343
Champagne flavor influenced by the sugar (A) 399
Clarifying wine with α-cellulose (P)..... 701
Consumption sets record (N)..... 216
Corrosion of metals by juices, musts and wines (A)..... 290
Effects of metals on wines (A)..... 291
How quality can be controlled in wine making. Marius Biane *78
Pineapple wine.....*393

WINE INSTITUTE:
San Francisco meeting (N)..... 216

WRAPPING:
Aluminum foil coated for cheese wrappers (A) correction..... 700
(A) 450
Moisture proof (e)..... 347
Sterilizing wrapping materials (A)..... 509
Wrapping paper (e)..... 347
Wrapping machine for pops (e).....*214
